Nomad Aviation receives Approval to operate at London City Airport (LCY/EGLC)

February 08, 2019

Nomad Aviation AG has received the full approval to operate its Cessna Citation CJ1+ and Cessna Citation CJ2+ in and out of London City Airport starting February 1st, 2019.

London City Airport is located in the Royal Docks and the heart of the UK capital, making it the closest and most convenient airport for easy access to London's financial district. London City airport features some of the most restrictive steep approach and noise abatement regulations in aviation. Flight crews and aircraft require special certification and training to operate at London City Airport. Nomad Aviation's crews and Cessna Citation CJ1+ / CJ2+ aircraft have met these rigorous requirements. Both aircraft are commercially operated through Nomad Aviation's Swiss AOC and are therefore fully available for charter.

"Our London City Approval marks yet another milestone, allowing us to provide our charter clients with a competitive advantage," said Christoph Thurnherr, Vice President Aircraft Management & Sales of Nomad Aviation.

For further information kindly contact Christoph Thurnherr, Vice President Aircraft Management & Sales, Ph: +41 58 800 08 00 or via e-mail: communications@nomadjet.eu
