Nomad Technics provides AOG support to an operator of a Bombardier CL650 in Malaga, Spain.

Basel, August 13, 2019 - Nomad Technics successfully provided AOG support to an operator of a Bombardier Challenger 650 at the International Airport of Malaga, Spain.

On Saturday afternoon Nomad Technics received an AOG call from Bombardier that a customer's Challenger 650 was in a non-flyable condition at Malaga's International Airport. The aircraft manufacturer dispatched a dedicated "Bombardier Response Team" Challenger 300 to Basel to fly a technician and tools to Malaga the same evening. Repair work started immediately after landing with the hydraulic leak on the landing gear located. Spare parts were ordered on early Sunday morning. A second mechanic arrived in Malaga from Switzerland with special tools and test equipment on Sunday afternoon to further proceed with the repair. After successful tests the aircraft could return to service and was handed over to the satisfied customer on Sunday evening.

„We are proud that we have completed the AOG event on the Challenger 650 with an extremely short reaction time during the weekend“, says Roman Hug, VP/General Manager of Nomad Technics. „Thanks to the flexibility of the engineers and the short communication channels we could rectify the defect to the full satisfaction of the customer“, adds Heinz Koehli, Executive Chairman of Nomad Aviation.

Nomad Technics AG, the maintenance division of Nomad Aviation AG, is an EASA Part-145 approved organization (Approval No. CH.145.0386) and provides maintenance inspection and non-routine repair work on Bombardier Challenger 600, 850 series, Bombardier Global XRS, Global 5000, Global 6000 and Embraer Legacy 600 and 650 business jets. Other types include Cessna's C525 series aircraft. The company occupies its own 7'400 m² hangar together with 7'000 m² of additional ramp space at the International EuroAirport in Basel / Switzerland, where it offers also hangarage services for aircraft up to the size of the Boeing 737 series and the Airbus A320 family.

About Nomad Aviation:

Nomad Aviation, based in Switzerland, offers maintenance and hangarage, aircraft management and charter services. It operates an exclusive fleet of aircraft, ranging from light to ultra-long-range jets and VVP Airliners including Cessna CJ1+ and CJ2+, Embraer Legacy 650, Bombardier Challenger 604, CRJ100, Global 5000, Gulfstream G450 as well as Airbus A319ACJ. Nomad Aviation has offices in Zurich-Kloten and Basel, Switzerland as well as in Sliema, Malta.
