Nomad Technics completes A- and B-checks on a Boeing BBJ

Basel, November 30, 2021 - Nomad Technics has recently completed both A- and B-checks on a Boeing BBJ in addition to extensive cabin maintenance and refreshing work.

The work included the scheduled maintenance with A- and B-checks directed by Boeing as well as Out of Phase (OOP) tasks and defect rectification. In addition, the maintenance team conducted work to improve the aircraft's cabin appearance, such as refreshing of VVIP seat covers, cabin panels and liners and improving of the cabin's interior lighting.

„We are excited that we have successfully completed A-and B-checks and brushed-up the cabin on the Boeing BBJ aircraft which then could be released into service and handed over to a very satisfied customer on budget and on time“, says Christophe Haeffelin, Director Maintenance at Nomad Technics. „Being able to offer this work certainly opens up new markets for Nomad Technics. We are looking forward to welcoming owners and operators of Boeing BBJ aircraft which are EASA, Aruba, Bermuda, Cayman Islands, Isle of Man, Qatar and San Marino registered to demonstrate our bespoke aviation and highly skilled VVIP aircraft maintenance services at our Basel/Switzerland facility“, adds Thomas Gierlich, the company's Director Maintenance Sales.

About Nomad Technics AG:

Nomad Technics AG, the maintenance division of Nomad Aviation AG based in Basel/Switzerland, is an EASA Part-145 approved organization (Approval No. CH.145.0386) and provides maintenance inspection and non-routine repair work on Bombardier Challenger 300, 600, 850 series, Bombardier Global XRS, Global 5000, Global 6000 and Embraer Legacy 600 and 650 business jets as well as line and base maintenance work on the Airbus A320 family and Boeing 737 series.

The company occupies its own 3'900 m2 hangar together with 3'500 m2 of additional ramp space at the International EuroAirport in Basel / Switzerland. In addition to maintenance the company provides hangarage and parking services for aircraft up to the size of the Airbus A320 family and Boeing 737 series. Disinfection and deep cleaning of any type of business jets is also on offer.
