Nomad Technics receives EASA Part-145 approval for line and base maintenance.

Zurich, December 09, 2018

Nomad Technics AG, the maintenance division of Nomad Aviation AG, has received the EASA Part-145 Maintenance Organisation Approval Certificate to perform full line and base maintenance at its Basel, Switzerland, facility.

Nomad Technics AG is an EASA Part-145 approved organisation (Approval No. CH.145.0386) and provides base and line maintenance services. The company is authorized to perform work on Embraer, Bombardier and Cessna aircraft, including Embraer 135, known as Legacy 600 and 650, Bombardier Challenger 604, 605, 650, 800, 850, CRJ 100, Global Express, Global Express XRS, Global 5000, 6000 and Cessna CJ1, CJ2 and CJ3.

The company occupies its own dedicated 7'400 m2 maintenance hangar together with 7'000 m2 of additional ramp space at the International EuroAirport in Basel / Switzerland. Nomad Technics offers also hangarage services for aircraft up to the size of the Boeing 737 series and the Airbus A320 family.

„We are excited that we have been awarded the EASA Maintenance Organisation Approval which is a great expansion of our range of business aviation services”, says Heinz Koehli, Executive Chairman of Nomad Aviation. „We are looking forward to welcoming operators of Embraer, Bombardier and Cessna aircraft at our facility to maintain their assets and to build relationships with industry partners”, adds Roman Hug, Director Maintenance and CAMO of Nomad Technics.

About Nomad Aviation:
