Nomad Technics performs its first 120-month inspection on a Bombardier Global 5000

Basel, March 30, 2022 - Nomad Technics has recently completed its first 120-month inspection on a Bombardier Global 5000 aircraft.

During the largest maintenance event to be undertaken on a Global 5000, the 120-month inspection saw a thorough examination of the aircraft's airframe and after the complete removal of the cabin's interior generated a significant amount of corrosion findings and repairs. During the maintenance time, several Service Bulletins (SBs) were executed, while the cabin interior has undergone a complete refurbishment, including carpet change, seat re-upholstery and soft material replacement. Some exterior paint repairs were done as well.

„The successful completion of this first 120-month inspection is a significant milestone for Nomad Technics and will enable us to enhance our capabilities to provide this type of maintenance services on a variety of other aircraft types”, says Christophe Haeffelin, Director Maintenance of Nomad Technics. Estelle Thorin, the company's Director Sales & Project Management adds: „Being able to offer this demanding work opens up new markets for Nomad Technics. We are looking forward to welcoming owners and operators of Bombardier aircraft at our Basel/Switzerland facility to demonstrate our highly skilled VVIP aircraft maintenance and bespoke aviation services.”

About Nomad Technics AG:

Nomad Technics AG, the maintenance division of Nomad Aviation AG based in Basel/Switzerland, is an EASA Part-145 approved organization (Approval No. CH.145.0386) and provides maintenance inspection and non-routine repair work on Bombardier Challenger 300, 604, 850 series, Bombardier Global XRS, Global 5000, Global 6000 and Embraer Legacy 600 and 650 business jets as well as line and base maintenance work on the Airbus A320 family and Boeing 737NG series.

The company occupies its own 5'100 m2 hangar together with 6'800 m2 of additional ramp space at the International EuroAirport in Basel / Switzerland. In addition to maintenance the company provides hangarage and parking services for aircraft up to the size of the Airbus A320 family and Boeing 737 series. Disinfection of any type of business jets is also on offer.

About Nomad Aviation:
